### CHROMEBOOKS/COMPUTERS

- ALL students will need to provide their own laptop computer for the 2021-2022 school year.
- Students will need access to internet at home.

Laptop computers may be purchased on your own or purchased through STM for \$225.

There are also a limited number of computers available to rent for \$100 per year.

Please call the business office for more information and/or rental availability.

The minimum spec for a Chromebook is:

- Dual Core 1.6 GHz Processor
- 2 GB RAM
- Minimum 3 hour battery life
- Minimum 1 USB Port
- No internal storage is necessary if student uses Google Drive

The minimum specs (for best performance) for a windows-based laptop is:

- Dual or Quad Core 2.2 GHz Processor
- 4 GB RAM
- at least a 128GB HDD.
- An SSD drive instead of a standard HDD will also increase performance, but is not necessary
- 1 or 2 USB ports is also recommended, since some slim devices are starting to appear on the market without them.
- No DVD drive is required.

iPads and tablets do not meet the specifications and will **not** be accepted.

**Please label your device and charging cable, mouse, case, or any other piece of external hardware with your name.**
